RECEIVED 13 SEP 2002

12th September 2002

Dear Mr Copeland

Pineholt Village Hall – Application of SonaSpray

We got there in the end and the treatment is already making a difference as we have this week confirmed a weekly booking for a local Brass Band to use the hall for practice. They had tried the Hall before the treatment had been applied and turned it down, so we had great difficulty in persuading them that it was cured.

However, by offering them a free trial we have convinced them.

Please thank your “gang” who did the work, they could not have been better.

Thank you again for your patience over the long period that it took to get a decision and obtain funding.

Yours Sincerely

David J Mills
Clerk to the Council
