Dear John

**Saltash School Science Labs
Application of Acoustic Spray**

Further to the work carried out by your company **at the** above school, I would like to say that during a recent follow up visit to the school the performance of the acoustic spray has proved to be wholly successful. The teaching staff are very happy as they now have a satisfactory environment in which to teach.

Further tests have been carried out by Exeter University and they have confirmed that reverberation times are now within the DfEE guidelines.

I would also like to take this opportunity to thank you and your team for the professional way in which the work was carried out and the level of cooperation that was afforded to me as the County Council's representative.

Yours sincerely

Brian L Hardman
Senior Clerk of works (Project Manager)
Building Design Group
Cornwall County Council
